

JOIN US FOR THE FOURTH ANNUAL

BAY AREA DIABETES SUMMIT

MARCH 5, 2017 | 8:00 AM – 3:45 PM

CHABOT COMMUNITY COLLEGE
25555 HESPERIAN BLVD., HAYWARD, CA 94545

Check in at the Reed L. Buffington Performing Arts Center (building 1300 on map). Parking: Parking is free on Sunday. Closest lots are lots G & H. **See map for more details and driving directions: <http://www.chabotcollege.edu/about/CampusMap.asp>**

The **Bay Area Diabetes Summit** is a collaborative effort of medical providers, community organizations, and medical institutions from across the Bay Area. The Summit offers participants a day of learning and engagement with the T1D community. Speakers include medical professionals, researchers and patient advocates covering a wide array of topics related to type 1 diabetes management and research. The Summit is open to the entire community of type 1 diabetes patients, caregivers, family members, and healthcare providers.

KIDS CAMP:

Children with and without type 1 diabetes can enroll in the Kids Camp offered by DYF. Counselors and staff will provide a variety of programs suitable for all ages. Diabetes care is provided by trained counselors, many of whom have T1D themselves, and medical staff on site in consultation with the parents.

MORNING SPEAKERS:

- **Qizhi Tang, PhD**, Professor of Surgery Division of Transplant Surgery, Director Transplantation Research Laboratory, University of California San Francisco. **Can We Stop Diabetes By Taming the Immune System?**
- **Keynote speaker, Henry Anhalt, DO**, Chief Medical Officer, T1D Exchange. *From Data to Change: How The T1D Exchange Program is Working to Bring About Real Change in Patient Outcomes.*
- **Inspirational speaker Will Cross**, mountain climber. **What's Your Everest?** *Cross takes us through his three-year journey to the top of Mount Everest. Cross seeks to get the message out that if he can control his diabetes in these conditions, no one should feel hindered by diabetes, and he encourages us to find the explorer within. Will Cross's participation is part of **Tandem Diabetes Care's** Live Life in Full Color speaker series.*
- **Diana Naranjo, PhD**, Clinical Associate Professor, Psychiatry and Behavioral Sciences - Child and Adolescent Psychiatry, Stanford University. **Developing Resilience and Positive Coping Strategies for Living Successfully with Diabetes.**
- **Aaron Kowalski, PhD**, Chief Mission Officer and Vice President, Research, at JDRF. **Automated Insulin Delivery Devices State of the Field: Where Are We? Where Are We Going? When Will We Get There?**

Vendor Fair with over 30 diabetes companies and community partners.
